***D'Ornano Partners advised LDC on the acquisition of Tranzit Group in Hungary***

D'Ornano Partners has advised LDC, the French leader of the poultry market and one of Europe's biggest poultry companies, employing more than 19,000 people, on the acquisition of the majority shareholding in the Hungarian Tranzit Group.

Family run business since 1990, Tranzit Group is one of the main waterfowl product companies in Hungary, being engaged in all aspects of the waterfowl business (breeding, hatching, preparing feed meal, raising, slaughtering, processing and sales).

This transaction, subject to a merger clearance by the German competition authority, is an important step forward in the internationalization of LDC, considering Hungary as the entry point on the Central and Eastern European poultry market.

The transaction encompasses a sale of shares and quota and the creation of a joint venture company, ensuring the long-term cooperation between LDC and Tranzit Group.

The M&A team of D'ORNANO PARTNERS, led by Managing Partner François d'Ornano and composed by team leaders Anna-Mária Veres and Amaury Chautard of the Budapest and Paris offices, is acting as LDC's legal advisor for this complex transaction.

**Note to editors**

D'ORNANO PARTNERS is a French law firm with an international capacity and presence. The firm has embraced an integrated model for its international operations based on a strong synergy of the teams and skills amongst different offices. The Paris office is focused on M&A, real estate and financial operations in France, while also providing high-level and industry-specific support to other offices. The CEE offices (Budapest, Belgrade and Bucharest) are specialized in cross-border investments and provide legal support to their international clients in each respective jurisdiction.

The firm focuses on the excellence of its business and legal services in all fields: complex M&A transactions, greenfield and partnerships with local actors or restructuring of existing assets, real estate investment, development and financings, especially in the industrial, commercial and hospitality sectors.

Its lawyers are members of one or more European bars and benefit from a deep understanding of the differences between local laws and approaches in the region.
